**ARTICLE I - THE CONTRACTOR’S OBLIGATIONS**

**SCOPE OF WORK**

**Task 1—Project Coordination and Planning (January through March 2022)**

Contractor will hold an initial Project Kickoff meeting with Council staff, The Hawthorne Agency, Inc. (Hawthorne), and the FLO Analytics (FLO) project team in January 2022 to establish goals and objectives, discuss data elements and timelines, and modify the approach, as necessary. This meeting will provide the City with an opportunity to inform Contractor about the district history, neighborhoods, natural boundaries, or other elements we should consider in the development of new boundaries. Contractor will work to identify the locations of any communities of mutual interest and areas within the City that may have experienced recent development. Contractor will discuss the available data sources, identify any limitations or data gaps that could impact the analysis and develop a plan to address them. Contractor will also work with City staff to locate additional data sources that could supplement our analysis.

Following the project kickoff, Contractor will compile all the necessary data elements and assemble them into a geodatabase that can be transferred to the City at the conclusion of the project.

### **Deliverables:**

- A summary email of the initial coordination meeting that identifies the data elements our analysis will consider and provides a detailed project timeline.
- A geodatabase containing the data sources included in the analysis.

### **Task 2—Public Meetings and Presentations (January through March 2022)**

Contractor understands the City will need assistance with three public meetings during the redistricting project to ensure a fair and transparent process that offers sufficient opportunity for public involvement. Contractor will attend virtually, and Hawthorne team members will attend virtually, or in-person if allowed. A summary of the topics to be covered at each meeting is provided below:

- **First public meeting (January 2022):** Before drafting district boundary option maps, Contractor will conduct a public presentation to describe the procedural, legal, and analytical aspects of the redistricting process. The presentation will include the following:
  - An overview of redistricting legal requirements
  - A demographic summary of the existing council districts
  - Our assessment of how each district’s population has changed since they were originally drawn
  - A description of the analyses and process we will use to draw the new district boundaries
- **Second public meeting (February 2022):** During the second public meeting Contractor will present a minimum of four draft district boundary option maps that satisfy the City’s requirements including all local, state, and federal redistricting regulations and guidelines. For each scenario, Contractor will provide a map, demographic summary of the districts, estimated population balance, and written description of the scenario, including how it compares to the original the City’s current council district boundaries. Contractor will also solicit and document public feedback on each of the scenarios.
- **Third public meeting (March 2022):** At the third public meeting Contractor will present the final district boundary scenario for public comment and adoption by the Council.

Any additional meetings the City requires Contractor to attend and/or present at would be outside of the scope of this Contract and would require a Change Order that will result in additional charges and must be approved by the City, Contractor, and Hawthorne at least three business days prior to the date of the meeting.

### **Task 3—Assess Current Population Balance (January 2022)**

Drawing on the 2020 U.S. Decennial Census P.L. 94-171 Redistricting Data Summary Files and the district boundary files provided by the City, our team will calculate the total population for each of the City’s five existing districts. Contractor will then identify the City’s ideal district

population and calculate the overall population balance. This estimate will be contrasted with the City's population balance according to the 2010 U.S. Decennial Census data. Results will be compiled into maps, tables, and other visual aids.

**Deliverable:**

- A map and accompanying demographic tables showing population change for each council district.

**Task 4—Develop Draft District Boundaries (January through February 2022)**

Contractor will develop a minimum of two, but no more than four, draft district boundary option maps for review by Council staff, the City attorney's office, and the Council, if requested. For each option, Contractor will document the demographic and analytical information of each district and draft a written description of the benefits and limitations. Demographic and analytical information may include the following: total population, voting age population, total population by race/ethnicity, citizen voting age population by race/ethnicity, and measurements of district compactness (e.g., convex hull, Polsby-Popper).

The draft district boundary option maps will be presented to the public during the second public meeting. All draft district boundary option maps will be provided to the City prior to presentation at the public meeting.

**Deliverable:**

- A minimum of two and maximum of four draft district boundary option maps, each with an accompanying demographic data table and written description.

**Task 5—Develop Final District Boundaries (March 2022)**

Drawing on feedback from Council staff, the City attorney's office, the Council, and the public, Contractor will revise the draft district boundary option maps and develop a final proposal for the new district boundaries. After voting and adoption of the new district boundaries, Contractor will deliver the final maps to the City in all requested formats, provide a legal written description of the boundaries, and work with City staff to ensure that all required maps and documentation are provided to the necessary parties.

**Deliverable:**

- Hard and electronic copies of the final council district boundary maps and all accompanying data tables and information in any format requested by the City.

**Task 6—District Scenario Modeler (January through March 2022)**

Contractor will grant the City access to our District Scenario Modeler (DSM) and Community Builder applications and develop and deploy a custom website portal (the Redistricting Engagement Portal - see Task 7 below) dedicated to the redistricting project. Contractor's custom mapping interface allows users to participate in the redistricting process by easily creating their own district boundary maps. Built on Tableau data visualization software, the DSM is a flexible tool that can be tailored to the unique requirements of each redistricting project. These tools help support effective public engagement and community involvement in the redistricting process by

giving stakeholders an easy way to interact with and view the data and results and create their own maps.

Contractor will deploy a public version of the DSM on the Redistricting Engagement Portal, so City residents can draw and submit their own preferred district boundary maps. A recorded training of the DSM will also be posted on the Redistricting Engagement Portal (A dedicated support email address and a brief instructional video will also be provided.

Contractor will evaluate every map submitted by the Council and City residents, including hand-drawn maps submitted outside the DSM application. Our experience has shown that every map submitted can add value to the redistricting process. Maps that do not meet minimum legal requirements may yield key information about what is important to the community. Maps that do meet the minimum legal requirements will be further evaluated to assess district compactness and whether they create districts that support fair representation. When the evaluations are complete, the project team will compile the maps into a single document and provide summary demographic and analytical data for each map. The document will indicate whether each map meets the minimum legal requirements and whether it satisfies the concerns raised by the community.

#### **Task 7—Redistricting Engagement Portal (January through March 2022)**

Contractor will develop and deploy a website portal (Redistricting Engagement Portal) to host all materials related to the redistricting project, including but not limited to the following: project timeline, summary data files, and draft district boundary option maps. This task includes updates to the portal throughout the course of the project.

#### **Task 8—Communications and Community Engagement (February through March 2022)**

Contractor will subcontract with The Hawthorne Agency, Inc. (Hawthorne) to develop and deploy a community engagement strategy. In coordination with the Council staff and Contractor, Hawthorne will develop a community engagement strategy to create awareness of the project throughout the City and to ensure our process captures the input of stakeholders and community groups and is an inclusive process.

#### **Deliverables:**

- Scheduling, coordination, and facilitation of hybrid informational meetings in each council district to include location, tech, signage, security, materials, and staffing. A total of up to five meetings with a minimum of three Hawthorne staff per meeting.
- Preparation for, and presentations at, up to three City Council meetings.

## **ARTICLE IX - DISADVANTAGED BUSINESS ENTERPRISE (“DBE”) PROGRAM**

**A. *In General.*** The Contractor agrees to abide by the City Code Sections 70-456, *et seq.*, to use its best efforts to carry out all applicable requirements of the City’s DBE Program for the administration of this Agreement, as set forth in the City Code and any applicable rules adopted thereunder. The City’s Office of Supplier Diversity (“OSD”) oversees the DBE Program and assigns a DBE Compliance Officer (“DBECO”) to ensure compliance.

**B. *Monitoring.*** To ensure compliance with DBE requirements during the term of this Agreement, the DBECO will monitor the Contractor’ use of DBE subcontractors/suppliers (“DBE Entities”) through the following actions:

1. Job site visits;
2. Electronic payment tracking via the Contract Compliance Monitoring System or other means as approved by the OSD;
3. Routine audits of contract payments to all subcontractors;
4. Reviewing of records and reports; and/or
5. Interviews of selected personnel.

2. Execute written contracts with DBE Entities that meet the applicable DBE goals.
  - a. The Contractor shall provide the DBECO with copies of said contracts within 30 days from the date this Agreement is fully executed between the City and the Contractor.
  - b. The Contractor shall agree to promptly pay subcontractors, including DBE Entities, in accordance with law.
3. Establish and maintain the following records for review upon request by the OSD:
  - a. Copies of written contracts with DBE Entities and purchase orders;
  - b. Documentation of payments and other transactions with DBE Entities;
  - c. Appropriate explanations of any changes or replacements of DBE Entities, which may include a record of “Post-Award Good Faith Efforts” for each certified firm that the Contractor does not use in accordance with the approved DBE participation submission;
  - d. Any other records required by the OSD.

The Contractor is required to maintain such records for 3 years after completion or closeout of this Agreement. Such records are necessary to determine compliance with their DBE obligations.

4. Post monthly payments and submit regular reports to the DBECO as required via the online “Contract Compliance Monitoring System” or other means approved by the OSD.
  - a. The Contractor shall submit the initial report outlining DBE participation within 30 days from the date of notice to proceed (or equivalent document) issued by the City to the Contractor. Thereafter, “DBE Utilization” reports shall be due on or before the fifteenth day of each month until all DBE subcontracting work is completed.

The Contractor must notify the OSD of the intent for removal and substitution of a certified DBE immediately upon determination of that the DBE submitted on Compliance Form -1 is unable to perform the specified work. In such case, the Contractor shall use and document “Good Faith Efforts” to find a similarly qualified and certified DBE entity to perform such specified work. The same criteria used for establishing “Good Faith Efforts” in maximizing the participation of DBE Entities prior to awarding the Agreement will also apply to the substitution of DBE subcontractors during the performance of the Agreement; or
  - b. the Contractor reasonably believes that, due to a change of scope, execution of the work in accordance with the directions from the City is unlikely to meet the established percentage or terms. For purposes of this provision, a financial interest held by the spouse, child, or parent of any elected official or employee of the City shall be deemed to be a financial interest of such elected official or employee of the City. Any willful violation of this provision, with the expressed or implied knowledge of Contractor, shall render this Agreement voidable by the City and shall entitle the City to recover, in addition to any other rights and remedies available to the City, all monies paid by the City to Contractor pursuant to this Agreement without regard to Contractor's otherwise satisfactory performance of the Agreement.
