## NOTICE

Attached is a cover sheet summarizing the contents of a filing made by Entergy New Orleans, Inc. (“ENO”) with the Council of the City of New Orleans (“Council”) for Approval to Deploy Advanced Metering Infrastructure, Request for Cost Recovery and Related Relief, Council Docket No. UD-16-\_\_\_, made on October 18, 2016. The cover sheet summarizes the filing, and attached to the cover sheet summary is a copy of the filing so that anyone who wishes to review the filing and make a copy at his/her expense. A copy of this notice, the summary and the filing are to be located at the main branch and every operational satellite branch of the New Orleans Public Library within the City of New Orleans, the office of the Clerk of Council of the City of New Orleans, and also at the ENO Customer Care Center located in Orleans Parish.

### **SUMMARY OF THE APPLICATION OF ENTERGY NEW ORLEANS, INC. FOR APPROVAL TO CONSTRUCT NEW ORLEANS POWER STATION AND REQUEST FOR COST RECOVERY AND TIMELY RELIEF**

On October 18, 2016, Entergy New Orleans, Inc. (“ENO” or the “Company”) filed its Approval to Deploy Advanced Metering Infrastructure, Request for Cost Recovery and Related Relief (“Application”), CNO Docket No. UD-16-\_\_\_. ENO is an electric and gas utility organized and operating under the laws of the State of Louisiana, with its general office and principal place of business at 1600 Perdido Street, Building 505, New Orleans, Louisiana 70112. ENO furnishes electric service to approximately 197,000 retail electric customers in Orleans Parish and 107,000 retail gas customers.

The Application requests the Council of the City of New Orleans (“Council”) to find that the decision to undertake the deployment of Advanced Metering Infrastructure (“AMI”) is in the public interest and is therefore prudent. Because of the significant overall investment required to deploy AMI – and the resulting benefit to customers as the deployment occurs – the Company is requesting the implementation of a charge calculated on a per-customer basis that would recover the costs of AMI, net of certain benefits, through a customer charge phased in over the period 2019 through 2022, until rates are reset.

ENO has performed an illustrative calculation. Actuals will vary based on changes in the components, *e.g.*, estimated costs, benefits, class allocation, final rate design, cost of capital, *etc.* The following table provides the results of those illustrative calculations:

Illustrative Monthly Per-Customer AMI Customer Charge, 2019 – 2022				
	August 2019	January 2020	January 2021	May 2022
Electric	\$2.31	\$3.33	\$3.57	\$3.23
Gas	\$0.48	\$0.99	\$0.98	\$0.95
