- c. In the event that the Department of Safety and Permits and a third-party building plan review service provider disagree on requirements of the relevant Code provisions, the final determination of requirements shall be made by the Director in his/her capacity as the Code-designated authority for rendering of interpretations in compliance with the intent and purpose of this Code, pursuant to the Home Rule Charter.
- d. The Director may, at any time, invalidate third-party building plan review service provider registration if said service provider violates the procedures herein regulating their interaction with the City. The Department shall provide written reasons for the invalidation to the provider.

SECTION 109 - FEES

109.4 Building permit valuations. The applicant for a permit shall provide a construction contract indicating the fair market value of the permitted construction's value at time of application. Permit valuations shall be based on the fair market value of the work and include total value of work, including materials and labor, for which the permit is being issued, such as electrical, gas, mechanical, plumbing equipment and permanent systems. The Director shall be prohibited from requiring a contract to specify contractor overhead and/or profit. If, in the opinion of the Director, the valuation is underestimated on the application,

the permit shall be denied, unless the applicant can show detailed estimates to meet the approval of the Director. Final building permit valuation shall be set by the Director.

109.5 Related fees. The payment of the fee for the construction, alteration, removal or demolition for work done in connection with or concurrently with the work authorized by a building permit shall not relieve the applicant or holder of the permit from the payment of other fees that are prescribed by law.

109.6 Schedule of Permit Fees. On all buildings, structures or alterations requiring a building permit, a fee for each building permit shall be paid as required at the time of filing application, in accordance with the following schedule:

1. Permit fees for all work requiring permits, except for removal or demolition. These fees include the certificate of use and occupancy (with or without plans). \$60.00 plus \$5.00 per \$1,000.00 or fraction thereof of construction value.
2. When plans are required and filed with an application for a building permit, the Department of Safety and Permits shall collect a plan checking fee of \$120.00 or one-tenth of 1% for the total valuation of all construction work, whichever is greater, before acceptance of the submitted application. Total valuation shall be the same as that used in determining building permit fees.
3. When plans are submitted for a re-review process, the Department of Safety and Permits shall collect a re-review plan checking fee. The amount of the fee shall be determined as one-twentieth of one percent for the total valuation of all construction work. The total valuation shall be the same as used in determining building permit fees. There shall be a minimum fee of \$45.00 and a maximum of \$5,000.00 per application for re-review.
4. Permit fees for removal or demolition shall be as follows:
 - a. \$95.00 plus \$5.00 for each \$1,000.00 of demolition cost.
5. An extra inspection or wasted trip fee of \$50.00 shall be incurred for each inspection called for by the owner or the owner's representative when, in the opinion of the Director, the work to be inspected is incomplete and/or not suitable for inspection. This charge is for any and all extra inspections made necessary as a result of blatantly incomplete work, inaccessibility to perform the inspection or for alterations to work previously accepted. This fee is in addition to any regular required permit fees.
6. A fee of \$60.00 for each residential unit or phase and \$125.00 for each commercial unit or phase shall be incurred to process the request for a Temporary Certificate of Occupancy.
7. On all buildings, structures, or alterations which fall within the Vieux Carré, as defined in Section 65-6 of the Code of the City of New Orleans, and which require a permit from the Vieux Carré Commission in addition to requiring a building permit under this Code, an additional 50 percent surcharge is added to the permit fee and the plan checking fee as enumerated in subsections 1, 2 and 3 of Section 108.6. above.
8. On all buildings, structures, or alterations which fall within an officially designated Historic District, or any officially designated landmark, or which otherwise may require Historic District Landmarks Commission staff review, an additional 50 percent surcharge is added to the permit fee and the plan checking fee as enumerated in subsections 1, 2, and 3 of this Section.
9. Review Fee. The cost to implement the stormwater management plans should be included in the total valuation of all construction work, and thus would be included in the current structure for calculating building permit fees.

3. In Section 1, on page 9, after line 195, insert the following:

SECTION 111 - CERTIFICATE OF OCCUPANCY

111.4 Temporary occupancy. The Director is authorized to issue a temporary certificate of occupancy before the completion of the entire work covered by the permit, provided that such portion or portions shall be occupied safely. The Director shall set a time period during which the temporary certificate of occupancy is valid.

111.4.1 Rapid Temporary Certificate of Occupancy (RTCO). The Director shall issue a Rapid Temporary Certificate of Occupancy valid for a period not exceeding 60 days for work that includes only interior non-structural modifications that do not impact the structural integrity of the building and do not involve a change of use, or otherwise violate this code or any other laws or ordinances of the City of New Orleans.

- (1) The Director retains the authority to revoke the RTCO if it is determined that the changes adversely affect safety or otherwise violate this code or any other laws or ordinances of the City of New Orleans.
- (2) The work authorized under an RTCO shall be subject to a follow-up inspection within 10 days of the occupancy commencement to ensure ongoing compliance with safety standards.
- (3) The RTCO shall be automatically revoked if the completed work is inconsistent with the details provided in the application.
- (4) The applicant shall remain responsible for adhering to this code and any other applicable laws or ordinances of the City of New Orleans and the State of Louisiana during the temporary occupancy period. Non-compliance may result in penalties or revocation of the RTCO.
